

Food Safety Supervisor

Mission Australia
Training Institute

COURSE TITLE: Implement Food Safety Procedures – Food Processing*

DURATION: One day

COST: \$220▼

Mission Australia Training Institute is currently offering a one day course in 'Implementing Food Safety Procedures' – the required training necessary to become a Food Safety Supervisor.

Under the Food Act 2006, all licensable food businesses are required to have a Food Safety Supervisor. Persons seeking to become a Food Safety Supervisor are required to either undertake the training required or to have a 'recognition of prior learning' assessment undertaken to determine if previous qualifications or learning is considered equivalent to the required competencies.

Supervisors are required to update these competencies and to ensure food businesses comply with the requirements. The Minister for Health is committed to an enforcement amnesty on these provisions until 1st July 2008.

The course will include:

- FDFCORFSY2A: Implement food safety program & procedures

Plus:

- Review of the principles of the Hazard Analysis Critical Control Point (HACCP)
- Leadership skills and knowledge in supporting day-to-day implementation of the food safety and quality programs in the work area, as well as supporting others to implement the requirements of the food safety and quality procedures.

All resources will be supplied by Mission Australia Training Institute (with inclusion of handouts and workbooks).

Don't miss this opportunity places are limited call today on 1300 MPOWER (1300 676 937).
